

# Apprenticeship Reforms Managed Service

Graded 'Good' by Ofsted, Intec have over 30 years' experience of developing, implementing and managing Apprenticeships and work-based learning programmes. This experience has led us to develop our Levy Management Service, which will enable your business to get the most out of the Government Apprenticeship Reforms.

## Apprenticeship Levy

The Apprenticeship Levy, introduced in April 2017, means that as a Levy payer you will already be paying money into your Apprenticeship Service Account. Working with Intec, we will ensure you make the most of this opportunity; investing this money into areas where your business can develop the skills of your existing workforce and build an exciting workforce for the future.

### We will:

- Review your current approach to Apprenticeships and how the recruitment of bright young talent could be introduced and expanded within your organisation.
- Map existing staff training and development activities to Apprenticeship Standards and explore how the Levy can support the delivery of training to your employees.
- Agree implementation plans ensuring Apprenticeship programmes are successful and that clear objectives are established in order to benefit your business.
- Develop a detailed and comprehensive action plan using our levy tool calculator and help to manage the Digital Apprenticeship Service (DAS)
- Create employee engagement and communication plans

For more information call: Freephone 0808 100 1155 or visit

## Once a programme has been agreed we will also:

- Support the internal communication channels through a range of activities including staff briefings.
- Plan the growth of any existing training programmes to match the value of your Levy payments.
- Coordinate specialist provisions and training to meet your needs.
- Schedule review meetings to monitor and evaluate the programmes' progress and key measures.

## Apprenticeship Standards

Alongside the Apprenticeship Levy, the government has made moves to ensure Apprenticeships are more employer driven. The Apprenticeship Standards being rolled out over the next few years will replace Apprenticeship Frameworks completely by 2020. These new Apprenticeships offer greater flexibility to design a nationally recognised work-based training programme around a specific job role. As part of our Managed Service, Intec will:

- Keep you fully up to date with the latest Standards as and when they are released for delivery.
- Help you design a delivery model, meeting the training and recruitment needs of your business.
- Manage key relationships, as the Standards develop with awarding organisations such as Highfield, City and Guilds and The Chartered Management Institute (CMI).
